

# Roger's Red California grape

*Vitis* × 'Roger's Red'

**Height & Spread:** To 30' (mature size)

**Foliage:** Deciduous

**Maintenance:** Low

**Exposure:** Full sun, Part Sun

**Bloom Season:** Late Spring – Early Fall

**PRO** *Attractive green canopy turning fiery red in fall, fruit mostly for wildlife (we made jam!)*

**CON** *Needs a larger site due to a very vigorous growth habit, beset by typical grape pests*

Climate Ready Vines Project
